EnerNOC Again Named One of Boston's Best Places to Work

BOSTON, May 2, 2013 (GLOBE NEWSWIRE) -- [EnerNOC, Inc.](#) (Nasdaq:ENOC), a leading provider of energy intelligence software, today announced that it has been ranked among the region's "Best Places to Work" by the Boston Business Journal. The 80 honorees, comprising small, medium and large businesses, will be celebrated at a June 13 event at the City Wang Theatre.

"The companies we honor every year in Best Places to Work have created a high level of workplace satisfaction, not an easy accomplishment," said Chris McIntosh, publisher of the Boston Business Journal.

"We're thrilled to be recognized once again for having such bright, relentless, and good people, and for the positive work environment we foster," said Tim Healy, Chairman and CEO of EnerNOC. "Throughout every level of the organization, EnerNOC prides itself on our ability to attract and retain top talent that is passionate about changing the way the world uses energy."

The rankings are based on surveys of employees at each company. The surveys asked employees a series of questions about work environment, work-life balance, job satisfaction, advancement opportunities, management, compensation, and benefits. Employees from more than 400 companies completed the surveys that were used to create the rankings.

EnerNOC, which is headquartered in downtown Boston and will soon be moving to the Innovation District at the Boston Seaport, employs nearly 700 people worldwide. In addition to the criteria outlined by the award, EnerNOC prides itself on competitive employee benefits that include incentives that promote green and sustainable practices. EnerNOC has received numerous sustainability and workplace awards, including a 2013 Boston Business Journal Best Green Practices Workplace award, the 2012 New England Clean Energy Council Employer of the Year award, a Boston Green Business Award, The Boston Globe's Top 100 Places to Work in Boston in 2009 and 2010, and The Boston Business Journal's Top 60 Places to Work in 2008.

About EnerNOC

EnerNOC is a leading provider of energy intelligence software. EnerNOC unlocks the full value of energy management for utility and commercial, institutional, and industrial (C&I) customers by delivering a comprehensive suite of demand-side management services that reduce real-time demand for electricity, increase energy efficiency, improve energy supply transparency in competitive markets, and mitigate emissions. EnerNOC's Utility Solutions™ offerings, which include both implementation and consulting services, are helping hundreds of utilities and grid operators worldwide meet their demand-side management objectives. EnerNOC serves thousands of commercial, institutional, and industrial customers worldwide through a suite of energy management applications including: DemandSMART™, comprehensive demand response; EfficiencySMART™, continuous energy savings; and SupplySMART™, energy price and risk management. EnerNOC's Network Operations Center (NOC) offers 24x7x365 customer support. For more information, visit www.enernoc.com.
