EnerNOC Hires Fielder Hiss as Vice President of Product Management

BOSTON, May 2, 2013 (GLOBE NEWSWIRE) -- [EnerNOC, Inc.](#) (Nasdaq:ENOC), a leading provider of energy intelligence software, today announced it has hired Fielder Hiss as Vice President of Product Management, effective immediately, reporting to EnerNOC Vice President of Product Strategy and Technology, Micah Remley. In this role, Mr. Hiss will be responsible for distilling business strategy and translating customer needs and market opportunities into robust technology products.

"Fielder has a unique background that blends a strong technical foundation with the type of management style that motivates teams to deliver great products," said Tim Healy, Chairman and CEO at EnerNOC. "I look forward to collaborating with Fielder to change the way the world uses energy through the industry's most compelling energy intelligence platform."

Mr. Hiss joins EnerNOC from 3D software company Dassault Systèmes SolidWorks Corporation, where he most recently served as Vice President of Product Marketing and Product Management, providing strategic direction in the development of the company's software. Hiss held several product management roles at SolidWorks, leading successful teams and achieving company-leading results. Previously, Hiss held positions at CADD Edge, Inc. (a DS SolidWorks reseller) and Intelligent Quotations, Inc. He is also a frequent speaker on software development both in the Boston area and nationally.

"With over \$160 million invested to date in our technology platform, it's clear to me that EnerNOC is ensuring its product development pipeline is robust and cutting-edge," said Hiss. "I am ready and excited to join the EnerNOC team and deliver a product roadmap that addresses some of the biggest energy management challenges that face today's leading enterprises."

EnerNOC again adds to its roster of technology industry veterans with this hire. In April 2013, Chief Financial Officer Neil Moses, formerly of PTC, joined the company. In 2012, EnerNOC hired Patricia O'Neill as its Vice President of Human Resources, formerly of Art Technology Group (now part of Oracle) and First Data Corporation, and Gerry Wilson as CIO, formerly of the Unica Corporation (now an IBM company) and RSA, the security division of EMC. In 2011, EnerNOC added Hugh Scandrett as Vice President of Engineering, having served in a similar role with Kronos, Inc., a leading workforce management solutions firm. Scandrett also had held leadership positions with Ounce Labs, IBM Rational, DSC Communications, and Nortel.

About EnerNOC

EnerNOC is a leading provider of energy intelligence software. EnerNOC unlocks the full value of energy management for utility and commercial, institutional, and industrial (C&I) customers by delivering a comprehensive suite of demand-side management services that reduce real-time demand for electricity, increase energy efficiency, improve energy supply transparency in competitive markets, and mitigate emissions. EnerNOC's Utility Solutions™ offerings, which include both implementation and consulting services, are helping hundreds of utilities and grid operators worldwide meet their demand-side management objectives. EnerNOC serves thousands of commercial, institutional, and industrial customers worldwide through a suite of energy management applications including: DemandSMART™, comprehensive demand response; EfficiencySMART™, continuous energy savings; and SupplySMART™, energy price and risk management. EnerNOC's Network Operations Center (NOC) offers 24x7x365 customer support. For more information, visit www.enernoc.com.

Safe Harbor Statement

Statements in this press release regarding management's future expectations, beliefs, intentions, goals, strategies, plans or prospects, including, without limitation, statements relating to the ability of Mr. Hiss to help EnerNOC provide value for its customers and build upon its market leadership position, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. Forward-looking statements can be identified by terminology such as "anticipate," "believe," "could," "could increase the likelihood," "estimate," "expect," "intend," "is planned," "may," "should," "will," "will enable," "would be expected," "look forward," "may provide," "would" or similar terms, variations of such terms or the negative of those terms. Such forward-looking statements involve known and unknown risks, uncertainties and other factors including those risks, uncertainties and factors referred to under the section "Risk Factors" in EnerNOC's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q, as well as other documents that may be filed by EnerNOC from time to time with the Securities and Exchange Commission. As a result of such risks, uncertainties and factors, the Company's actual results may differ materially from any future results, performance or achievements discussed in or implied by the forward-looking statements contained herein. EnerNOC is providing the information in this press release as of this date and assumes no obligations to update the information included in this press release or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
