## **EnerNOC Named an Enterprise Smart Grid Leader by Groom Energy**

BOSTON, July 17, 2013 (GLOBE NEWSWIRE) -- [EnerNOC, Inc.](http://www.enernoc.com) (Nasdaq:ENOC), a leading provider of energy intelligence software, announced today that it has been named an Enterprise Smart Grid Leader by Groom Energy Solutions in a report titled "2013 Enterprise Smart Grid and Corporate Buyers' Guide to Energy Management Software." EnerNOC was one of ten companies selected from over 200 that were evaluated based on the strength of its technology, financial stability, financial payback of its offering, number of customers, sales momentum in the last 18 months, and overall product vision.

The report defines Enterprise Smart Grid (ESG) as the integration of energy metering, hardware, and software by organizations seeking visibility, control, and management of their energy consumption.

"By applying the principles of the Enterprise Smart Grid, large organizations can effectively drive energy efficiency performance across their operations," said Paul Baier, report author and Vice President of Research for Groom Energy Solutions.

"We continue to invest in our suite of Energy Intelligence Software solutions to help enterprise decision makers take a more holistic approach to energy management, driving savings and transparency, improving decision making, and improving operational performance," said EnerNOC Chairman and CEO, Tim Healy. "We're honored to be recognized in this report for our performance to date and vision for the future."
