EnerNOC Announces Common Stock Repurchase Program

Company May Repurchase Up to \$30 Million of Common Stock Over Next 12 Months

BOSTON, Aug. 6, 2013 (GLOBE NEWSWIRE) -- EnerNOC, Inc. (Nasdaq:ENOC), a leading provider of energy intelligence software, today announced that its Board of Directors has authorized the repurchase of up to \$30 million of the Company's common stock over the next twelve months. The purchases of common stock will be executed periodically on the open market as market and business conditions warrant.

"Our common stock repurchase program enables us to opportunistically reduce dilution from stock compensation," said Tim Healy, Chairman and Chief Executive Officer of EnerNOC, Inc. "This program reflects the confidence of the Board of Directors in our long-term growth strategy and further demonstrates its commitment to enhancing shareholder value."

The stock repurchase program does not obligate the Company to repurchase any dollar amount or number of shares of common stock, and the program may be suspended or discontinued at any time. The common stock repurchase program will remain in effect through August 6, 2014 unless terminated earlier by the Board of Directors. At June 30, 2013 the Company had approximately \$102 million in cash and cash equivalents and approximately 30.2 million shares of common stock outstanding.

About EnerNOC

EnerNOC is a leading provider of energy intelligence software and related solutions. EnerNOC unlocks the full value of energy management for utility and commercial, institutional, and industrial (C&I) customers by delivering a comprehensive suite of demand-side management services that reduce real-time demand for electricity, increase energy efficiency, improve energy supply transparency in competitive markets, and mitigate emissions. EnerNOC's Utility Solutions™ offerings, which include both implementation and consulting services, are helping hundreds of utilities and grid operators worldwide meet their demand-side management objectives. EnerNOC serves thousands of commercial, institutional, and industrial customers worldwide through a suite of energy management applications including: DemandSMART™, comprehensive demand response; EfficiencySMART™, continuous energy savings; and SupplySMART™, energy price and risk management. EnerNOC's Network Operations Center (NOC) offers 24x7x365 customer support. For more information, visit www.enernoc.com.
