About EnerNOC

EnerNOC (Nasdaq:ENOC) is a leading provider of energy intelligence software (EIS). Thousands of enterprises worldwide use EnerNOC applications and professional services to bring new clarity to how they buy energy, how much they consume, and when they use it to drive operational efficiency, improve productivity, and manage energy expenses. EnerNOC's suite of EIS applications for the enterprise include: SupplySMART™, energy supply and utility bill management applications; EfficiencySMART™, energy consumption and energy project management applications; and DemandSMART™, demand response and demand management applications. Hundreds of utilities and grid operators worldwide rely on EnerNOC applications to meet demand-side management objectives, enhance grid reliability, and provide cost-effective alternatives to traditional power supply resources. EnerNOC's applications for utilities include EnerNOC Demand Resource™, a capacity based agreement that provides utilities an assured level of load reduction delivered by EnerNOC on a turnkey, fully outsourced basis, and EnerNOC Demand Manager™, software-as-a-service (SaaS) that provides utilities and retailers with the tools to manage their demand response programs. EnerNOC's Network Operations Center (NOC) offers 24x7x365 customer support. For more information, visit www.enernoc.com.
