## EnerNOC Announces Call for Speakers for EnergySMART 2015 Conference

### March 2015 Event to Convene Global Energy Management Leaders in Philadelphia

BOSTON, July 21, 2014 (GLOBE NEWSWIRE) -- [EnerNOC, Inc.](#) (Nasdaq:ENOC), a leading provider of energy intelligence software (EIS), today announced that it is accepting proposals from energy and technology industry experts, veteran energy managers, and related influencers to speak at its global EnergySMART 2015 conference. The conference runs from March 24-26, 2015, at the Pennsylvania Convention Center in Philadelphia, PA, and will bring together the world's leading innovators and practitioners in all facets of energy management, including technology, engineering, finance, corporate sustainability, and policy.

In the past, EnergySMART has featured executive speakers from Coca-Cola, Ford, General Electric, Harvard Business School, Jones Lang Lasalle, Lockheed Martin, Microsoft, Stanford, the U.S. Department of Energy, and the Alliance to Save Energy, among other leading organizations. All interested speakers may submit an abstract of 300 words or less and the name, job title, and brief biography of the proposed speaker for consideration to [events@enernoc.com](mailto:events@enernoc.com) by August 30, 2014.

"This event has grown enormously over the past five years, and EnergySMART 2015 will be an unparalleled opportunity to learn about the latest energy management trends and insights, network with industry peers, and see firsthand how energy intelligence software transforms the enterprises that use it," said Gregg Dixon, Senior Vice President of Marketing and Sales at EnerNOC. "We are looking for speakers who will provide EnergySMART attendees with actionable, insightful knowledge that sets a new standard for energy management."

EnergySMART covers the full spectrum of energy management strategies including procurement, energy efficiency, and demand response. Sessions will be organized along three tracks: Commercial & Institutional; Industrial & Manufacturing; and EnerNOC U, which focuses specifically on maximizing value from EnerNOC's products and expertise. New additions for 2015 include specialized content targeted toward utility professionals and C-level executives.
